

# PreSonus Sizzling FireStudio Cash or Software Credit-Rebate Program, Part 1: Instructions

**H**ere's how to get a check in the mail, shipped free, directly to you, OR get a hefty discount on the Pro version\* of Studio One, our groundbreaking music-creation and production application.

**1** Purchase a FireStudio, FireStudio Project, FireStudio Tube, or FireStudio Lightpipe interface from an authorized PreSonus dealer between **8/15/09** and **12/31/09**.

**2** Collect ALL of the following:

- ✓ A copy of the original, dated, itemized **sales receipt** showing the purchase of a PreSonus FireStudio, FireStudio Project, FireStudio Tube, or FireStudio Lightpipe interface between **8/15/09** and **12/31/09**.
- ✓ This **form**, completely filled out, including your choice of cash rebate or software-upgrade purchase.
- ✓ The original **UPC bar code** from the product box. Sorry, but we cannot accept photocopies. It's gotta be the real thing, brutally amputated from the box. **Staple the bar code to the bottom of the form (page 2 of this PDF).**

**3** Mail all three items to us ASAP so that your envelope is postmarked on or before *January 31, 2010*. Send to:

**PreSonus FireStudio Rebate  
7257 Florida Blvd.  
Baton Rouge, LA 70806**

**4** Please review all of the rules and fine print on the third page of this PDF to make sure that you qualify and understand how this whole thing works. (Lawyers and accountants are involved, if you get our drift; for example, they insist that we say, "*Failure to comply with rules will result in void of rebate.*")

**S**tudio One Artist is packed in the box with your FireStudio interface. It's an awesome way for home musicians to realize their musical ideas. But if you like it as much as we think you will — and want beaucoup added horsepower and resources — here's your chance to upgrade to the Pro version for as little as \$49.

\*Studio One **Pro** adds 64-bit processing; a complete, integrated mastering suite; VST/ AU/ReWire support; a Custom Soundpack for Kore Player, with 200 instruments; 2,000+ more loops (4 GB) by Bandmate; and 100 more premium, sampled instruments from Digital Sound Factory. Plus 64-bit Multiband Dynamics, Gate, Expander, Groove Delay, and Analog Delay Native Effects plug-ins.
